

rea | *Azalea*[®] / *Azalea*[®] Assist

Offers excellent seating comfort and many adjustment possibilities!

The *Rea Azalea* is the natural choice for the moderately active user as well as for the more passive one. The comfortable seating system allows the user to alter the seat position, ensuring maximum comfort at all times. This combined with good driving characteristics makes *Azalea* the ideal choice. *Azalea* is a self propelling wheelchair with large rear wheels, and is complimented with an alternative transit version that keeps the same frame but with small rear wheels called *Rea Azalea Assist*. The new backrest, Flex 3, is multi adjustable in height, width and shape for different body forms. Available in 5 chassis colours and with 3 different upholstery materials.

Trusted Solutions, Passionate People

Features and Options

Tilt & recline makes life comfortable

The Rea **Azalea** and Rea **Azalea Assist** have a 25° seat tilt respectively and a 30° backrest recline. Both tilt and recline can be easily adjusted manually or electrically by the assistant and also by the user for the electrical version.

The backrest has a biomechanical positioning hinge, which follows the user's natural back movement when adjusting the backrest angle. Combined with the seat-tilt function, the DSS (Dual Stability System) helps to prevent Decubitus thanks to its non-friction re-body positioning.

Flex 3, backrest plate

Apart from being height adjustable it is width adjustable as well.

Flex 3, tension adjustable backrest

The multi adjustable backrest can be adjusted in height and in width for different body shapes.

Wide range of options

Individual width adjustments in the armrests and legrests and accessories for individual options.
